PRESENTATION – MR. A.A. TAYLOR.

On Wednesday, 30th September, the Chairman had a very pleasant duty to perform in the Boardroom. He presented a gold watch suitable inscribed with his name and length of service, to Mr. A.A. Taylor, or "Archie" as he is known to a large number of the staff.

Mr. Taylor joined the Company in August 1945 as a temporary driver (as he called it) after being demobilised from H.M. Forces. He soon joined up with the Removal team of Sumner and Simmons when they returned from the Forces, and eventually became foreman when they had left the Company. He continued to do this until Greening and the Golding left the Company, when it was decided to close the Removal Department down.

Mr. Taylor continues with the Company as Maintenance Engineer at the Uxbridge branch, where he does a sterling job of work.

Mr. Taylor was accompanied on this pleasant occasion by his wife who had had previous service with the Company. She was employed in the Linen Department at the Waterloo House site in the late twenties. As Miss Woodley she rendered the Company excellent service before her marriage and again during the war. It was felt that it would be most appropriate to ask her to join her husband for this presentation in view of the Taylor family's long connections with the Company.

After the presentation the Chairman, accompanied by Messrs. Frank and John Suter, took Mr. & Mrs. Taylor down to lunch in the restaurant, where everyone recalled the many and varied experiences which had befallen each of the persons present.

J. D. Suter,

Director.
